WORK EXPERIENCE

Immuneed AB   **FEB. 2022 – Present**

Laboratory Engineer
Uppsala, Sweden

As laboratory engineer I:
- Collect ca 10 000 datapoints, clean it, analyze it in Microsoft Excel and GraphPad Prism.
- Script VBA-Macros for faster treatment of the raw data and my macros saves ca 45.000€ by using my scripts in a year.
- QA analysis and FMCG responsible for the laboratory branch of the company.

Q-linea   **SEP. 2021– FEB. 2022**

Laboratory Technician
Uppsala, Sweden

- Worked in the development of their new product Podler®.
- Created, updated, and maintained a database of 2000+ bacterial isolates.
- Worked under PhD's with data collection, cleaning, and analysis of bacteria isolates after contact with blood.

Medicinal Faculty   **JUN. 2020 – SEP. 2021**

Research Assistant
Umeå, Sweden

- Performed laboratory tasks, collected ca 5 000 datapoints, and analyzed them in Excel and GraphPad Prism.
- Identifying a protein spike mechanism which cause bacteria to invade its niche and identifying that liposome's increase survival rate two-fold (198%) when secreted by the pray bacteria.

EDUCATION

Umeå University   **AUG. 2019 – SEP. 2021**

B.Sc., Biomedicine
Umeå, Sweden

- Studied Biomedicine and Biochemistry
- Appointed chairman for the university program's board.
- Performed several cross-faculty studies and data collections.
- Received an average of 75% response rate.
- Volunteered and was responsible for 40-200 students/night.

SKILLS

Data Analytics, SQL, Python, Database management, Excel VBA, Customer Report, Soft Skills, Office365
